YEAR 5/6 AUTUMN

COMPUTING
We Are Connected

VOCABULARY

Anchor tag bias	Disproportionate weight given to one perspective, typically because it accords with the author's own view.
Blog	A Website consisting of short articles, presented in reverse date order, typically inviting responses.
Social media	Websites and apps that allow users to create and share content or to participate in conversations with one or more other users.
Web browser	program running on a user's computer which requests and displays web pages using HTTP
World Wide Web	The HTML and other documents stored on individual web servers connected via the Internet and accessible via HTTP
Neutral point of view	A balanced perspective where all sides of an argument are presented fairly.

WHAT SHOULD I ALREADY KNOW?

What I should already know:
· How computer networks and how to work collaboratively on these.
· I can use a variety of software across   multiple devices to design and create a range on content.
· I can use technology safely and   responsibly and recognise the importance of this online.

STICKY KNOWLEDGE

–Technology should be used safely and respectfully and things people post online can be traced back.
–Report functions on websites are a way to deal with unwanted online behaviour.
– Anyone can post online and reviewing the reliability of information found is key to using the internet.
– Computer networks are key for collaboration in may real world situations.
– Understand the opportunities computer networks offer for communication and collaboration.

Weaving Concepts

Logical Thinking   Communicate   Online Safety

Key person: Mark Zuckerberg
