

YEAR 3/4  
SPRING

# GEOGRAPHY

## What should I already know?

- Different parts of the world experience different weather conditions.
- There are 4 seasons that are marked by different weather conditions.
- Collecting data through a small survey.

## Concept

## What we are learning

- Climates can influence the food we grow.
- Fair trading is the process of ensuring workers are paid a fair price, have safe working conditions and are treated with respect and equality.
- The UK grows food locally and imports food from other countries.
- Use the scale bar on a map to estimate distances.

## Tier Three Vocabulary

<b>Fair trade</b>	People who made products are treated and paid well.
<b>Distribution</b>	To spread a product to a large number of people.
<b>Import</b>	When a country buys goods from another country.
<b>Export</b>	Selling goods to another country.

**FAIRTRADE**  
FOUNDATION
