

YEAR 1/2  
AUTUMN

# GEOGRAPHY

## What should I already know?

- Understand some important processes and changes in the natural world around them, including the seasons and changing states of matter
- Recognise some similarities and differences between life in this country and life in other countries.
- Understand the effect of changing seasons on the natural world around them

## Concept

## What we are learning

- Name and locate the world's seven continents.
- Identify seasonal and daily weather patterns in the United Kingdom and the location of hot and cold areas of the world in relation to the Equator and the North and South Poles.
- Understand geographical similarities and differences through studying the human and physical geography of a small area of the United Kingdom, and of a small area in a contrasting non-European country.

## Tier Three Vocabulary

Compass	A tool for finding direction.
Global Warming	The process that causes the Earth to become hotter.
Equator	Imaginary line around the middle of the Earth.
